DAY 1..

Friday 8th January 2027, 9.30-4pm.

MARK MAKING!

What is mark making all about? Mark making is producing various marks by using a variety of different brushes, tools etc like twigs/sticks/straw, applying paint in different ways, using washes in different ways to layer texture, dry brush, splatter, salt, masking fluid and a host of other options to enable you to personalise your artwork and make it truly your own.

These techniques can be added to your artistic knowledge or 'arsenal' to add that 'little something special' and make your work next level!

The materials list will be emailed to you along with your receipt after payment to secure your spot is received.

LANDSCAPES!!

What are the most popular paintings in the world?? Based on what is most likely to sell.....landscapes are a clear winner!

Landscapes are so fascinating....there is nothing like standing somewhere and going "Ahhhh!" and soaking up a beautiful landscape. It could be a cityscape, a seascape or a panoramic landscape! They can be painted in so many different ways. Minimalist, hyper-realism, abstracted, monotone or just your very own way style.

We will look at composition, tone, colour mixing, the far distant background, middle distance and foregrounds and why these are so important and how they can make your works really sing!

A materials list and an image to use as inspiration will be emailed to you along with your receipt after payment to secure your spot is received.
